

# GET CONNECTED

CTHealthLink is the statewide, physician-led health information exchange delivered in partnership with the Connecticut State Medical Society.

This health information network allows connected physicians, hospitals and other providers to share patient information, employ powerful analytic tools designed to help improve clinical outcomes, reduce inefficiencies, and positively impact patient safety.

*“Connecticut physicians have been waiting for some time to have a functioning interoperable system. We know the electronic exchange of medical information improves health outcomes by giving physicians the right information at the right time. Care is better when we are connected.”*

**Jeffrey A. Gordon, MD**

CTHealthLink Advisory Committee Chair

**CONNECT.  
ANALYZE.  
ENGAGE.

# Why CTHealthLink?

CTHealthLink is the physician-led health information exchange delivered in partnership with the Connecticut State Medical Society.

## SECURE EXCHANGE OF PHI

Digital transfer of personal health information is secure.

## MORE COMPLETE PATIENT RECORD

Helps improve patient encounters and health outcomes while avoiding duplication of labs and tests.

## ANALYTICS

Provides participants access to secure analytic dashboard and report services to support improved outcomes, quality reporting, and reimbursements.

## DIRECT MESSAGING

Secure messaging between physicians and between physicians and their patients.

## TIMELY & EFFICIENT

Efficiencies of scale – information goes into the HIE once and is universally available to participating members of the healthcare team.

## PATIENT ENGAGEMENT

Meets the requirement to provide patients an ONC-certified patient portal that offers 24/7 access to their longitudinal health record.
